

SPUDNIK Спудник ROBOTICS

F.I.R.S.T. Robotics Team

The Department of Physics and Astronomy mentors the Moorhead High School FIRST Robotics Team – Spudnik. Spudnik Robotics is offering LED bulbs for sale. All proceeds benefit the high school robotics team.

The LED bulbs are very long-lasting, and use less than 20% of the energy of an equivalent incandescent bulbs. The bulbs are omni-directional and dimmable with a 2700K soft white color temperature. They will last roughly 33 times longer than incandescent light bulbs.

Saving energy saves you money. Purchase LED bulbs to save you money and help the Earth. Orders must be placed by the end of April.

LED Order Form

Please fill out the following form.

Name: _____

“60 W” Equivalent LED Bulb \$7/each Quantity _____ Subtotal _____

“100 W” Equivalent LED Bulb \$12/each Quantity _____ Subtotal _____

Total _____

Bring completed form and payment to Prof. Matt Craig, Department of Physics and Astronomy, Hagen Hall 307.
