

DragonCentral Update:

The site now has an “Explore” section, geared for those looking to explore how to get involved, and a “Manage” section, geared for those who manage a page/events/etc.

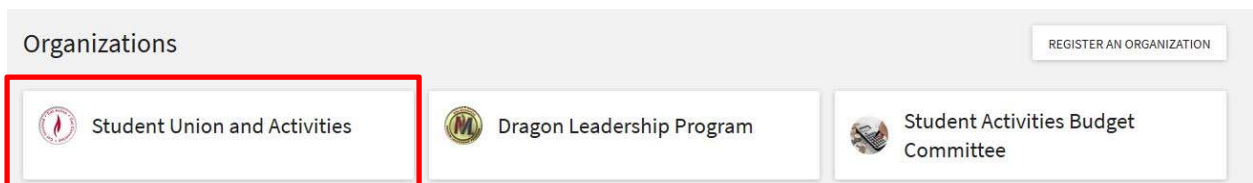

1. To make updates to your page, add events, update roster information, create forms, etc., you will now do this through the “Manage” or “Action Center” portion of the site. To switch to the “Manage” section, click on the :::: icon in the top.

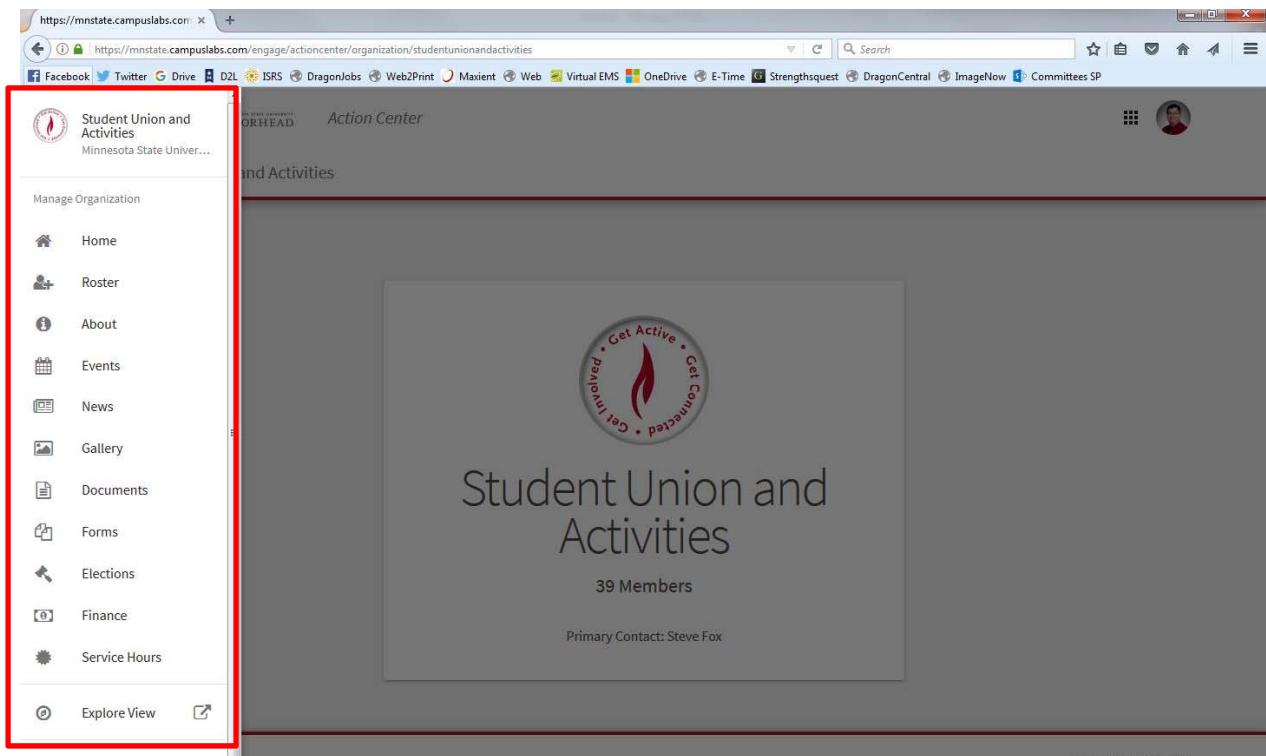

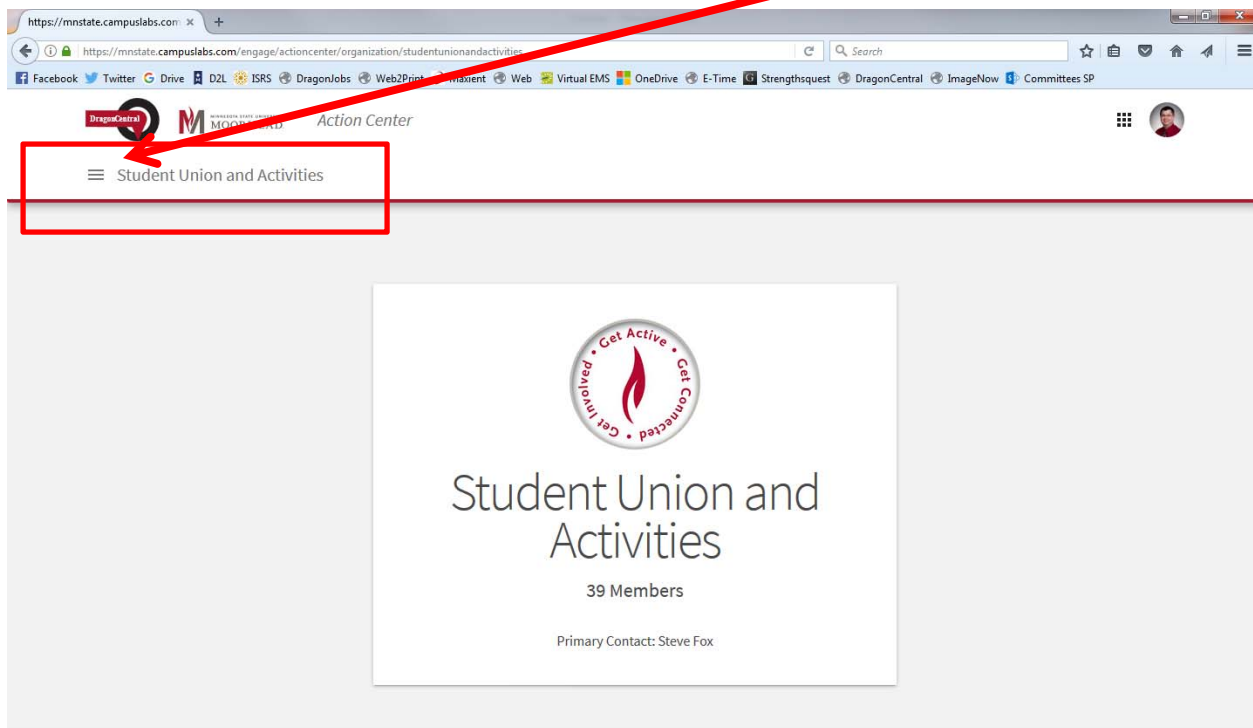

2. Then click “Manage”

3. You can then click on or search for your organization.

4. You'll find a left menu bar (swipe right on a mobile device) with the different areas for you to manage, including adding events, news, documents, roster updates, etc.

5. If you click on your picture or the round circle with your initial on the top right (or swipe left on a mobile device), you'll see the menu bar that used to be under "My Involvement" section. This is also where you will find the Sign-Out button.
