

THE DR. PAUL HARRIS LECTURE SERIES

Featuring Dr. Paul Harris

LIBERIA, THE NEGLECTED STEP-CHILD OF THE UNITED STATES

Please join the History Club in the debut of our new event series: The Dr. Paul Harris Lecture Series! We're honored to have Dr. Harris himself delivering our first lecture of the series. His talk will look at the history of Liberia from its founding for the colonization of free blacks up to the immigration of Liberians back to the United States in recent decades, tying that into current issues over immigration.
